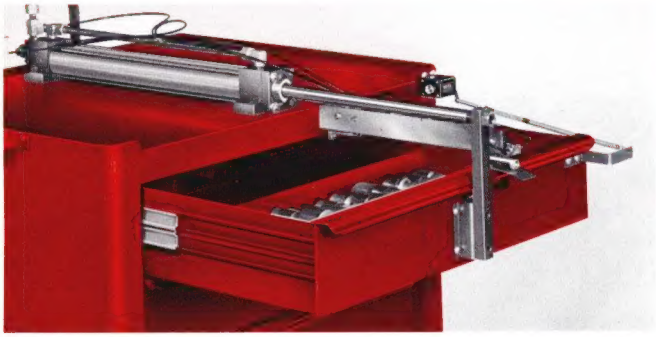
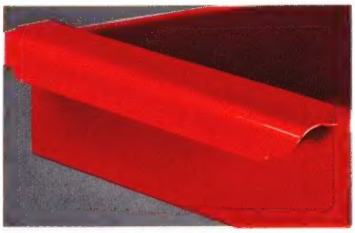
THE FINEST
FOR RUGGED DEPENDABLE
TOOL PROTECTION

YORKTOWN



Yorktown drawers are built to last. This drawer, containing 75 lbs. of tools, opened and closed 75,000 times with no appreciable sign of wear.

Drawers glide on a single or double suspension system; will never sag or pull out.



Full length drawer pulls are part of the drawer front. They are recessed to form a smooth front.

Drawer dividers welded at sides and bottom give extra rigidity to the drawer.

Non-marking Atlasite wheels with rugged casters. Cabinet base has 2 reinforcing channels to prevent bottom sag.

Fold up cabinet covers are locked in place by 2 heavy steel chrome plated brackets.

The top and sides of the rollaways are welded together to form a rugged one-piece unit. No sharp edges or corners.

A heavy duty lock locks all drawers and door at once. Conveniently located at top of cabinet.

The cabinet's sides form a unique one-piece corner and are welded to cabinet front for maximum strength.

All cabinets are protected and reinforced by 2 heavy duty skid rails welded to the cabinet bottom.

Yorktown's exclusive "slide-away door" permits easy access to the lower storage compartment of the rollaway unit.

TAKE THE **TOOL ROOM** TO THE JOB

MODEL 1174

SENTRY

PORTABLE TOOL ROOM

This deluxe unit provides space for almost every sized tool or piece of equipment . . . plus a rugged work bench surface to use them on. Eleven easy-glide storage drawers graduate up in size to a large 10¾" high x 17" deep base drawer. This drawer is 18 gauge steel and is dual suspended. Maximum tool protection is provided by use of two heavy duty locks. One lock in the work shelf secures all upper drawers while another below the work shelf locks all lower drawers.

YORKTOWN EXTRA HEAVY

Designed For Use Where Larger and Heavier Units Are Required

CABINET FEATURES

These cabinets are constructed of heavy 16 and 18 gauge steel and are welded to form a solid one piece unit. Drawer suspensions are cadmium plated and have limit stops to prevent pull out. Large drawers are dual-suspended to carry heavy loads and still roll smoothly. Cabinet cover is double-constructed for added strength and is equipped with a heavy duty lock that secures cover at BOTH sides. Two skid rails are welded to the cabinet base for added strength and protection.

all 4 units are interchangeable

ROLLAWAY FEATURES

The most rugged and spacious rollaways available. Heavy 16 gauge welded steel construction forms a one piece unit. All large drawers are dual suspended to take extra heavy loads. Drawer glides are cadmium plated with limit stops to prevent pullout. The model 009 is equipped with a heavy duty lock that locks all drawers at the same time. The model 006 has two heavy duty locks, both key alike one for the drawers and one for the compartment door. They roll freely on self lubricating 5" wheels and heavy duty cadmium plated ball bearing casters. Two casters are fixed and two are swivel with toe locks. The rollaway bottom is reinforced by two channel reinforcements welded in place.
